Summary

Third-year B.Tech CSE student at BTKIT, passionate about full-stack development using the MERN stack. Focused on creating fast, scalable, and user-friendly applications with a strong drive to learn and innovate.

Experience

Eascode

Developer Intern, Remote
10/2025 - Present

- Enhanced full-stack performance by **20%** through React & Node.js optimizations; revamped PDF generation system to eliminate formatting issues with **100%** output accuracy
- Collaborated with cross-functional teams to conduct **30+** test cases and document **15+** improvements, demonstrating strong problem-solving and teamwork

MobileCoderz

Internship Student, Remote
07/2025 - 08/2025

- Completed 2-month **MEAN & MERN Stack internship**, building full-stack applications with React, Node.js, MongoDB
- Enhanced development **efficiency and code quality** by **15%** through front-end and back-end feature implementation
- Delivered **20+** tasks and contributed to project milestones, demonstrating **strong problem-solving and teamwork**

Cognifyz Technologies

Front End Developer, Remote
08/2024 - 09/2024

- As a Web Developement Intern at Cognifyz Technologies, I had the opportunity to work on real-time projects that enhanced my understanding of web development.
- Developed and deployed **2** responsive web pages, improving UI/UX and reducing bounce rate by **25%**.
- Collaborated with a **4-member team** to build real-time projects, resulting in **100%** timely feature delivery.

Education

Secondary school

PSM public school, Delhi

Computer Science Engineering

BTKIT Dwarahat, Almora, Uttarakhand

Skills

Technical Skills : MEAN & MERN ,HTML,CSS,JavaScript,Socket, Tools & Deployment: GitHub, Vercel, Netlify, Render, Postman, Soft Skills: Problem-solving, Analytical Thinking, Communication, Team Collaboration, Learning Agility
